WHAT IT DOES

Remote Wipe	Safely deletes all contacts, messages and data on removable memory cards with a remote SMS command. Advanced cleaning procedures ensure that it is not be possible to restore wiped data.
SIM Matching	Lets you stay in control of your phone remotely, even when an unauthorised SIM card was inserted into your device. Trusted Friend will receive a wealth of information about the inserted SIM, including the phone number, IMSI and IMEI codes.
Trusted Friend	Trusted Friend is your help in the event of mobile phone's loss or theft. Initially, you set up one or more Trusted Friend phone numbers.
SMS/MMS Antispam	Filters out unwanted SMS/MMS messages. Allows you to define your own trustworthy contacts via blacklist/whitelist or simply block all unknown numbers.
Real-time Protection	Protects all applications, files and memory cards with the ESET NOD32 proactive technology optimised for mobile platforms.
Security Audit	An on-demand security audit checks the status of all vital phone functions, including battery level, Bluetooth status, device visibility, disk space and running processes.
On-access Scanning	Advanced scanning protects your device from threats attempting to access the system via Bluetooth, Wi-Fi or Infrared.
On-demand Scanning	On-demand Scanning provides reliable scanning and cleaning of integrated memory and exchangeable media. Scanning of specific folders is also supported.
Firewall	Monitors all incoming and outgoing communication based on custom rules. Gives the option to automatically block data while in roaming to keep your phone bill under control.
Remote Administration	Enables you to check the security status of your smartphone fleet, run on-demand scans and get overview and helpful information to keep you up-to-date on your smartphones' security.
