

I AM NCR SELFSERV™ 85

It's time to stand out from the crowd

Providing your passengers with all the services they need while they are travelling can be a challenge. That's where we can help. Our SelfServ 85 slimline kiosk is a stylish, interactive touchpoint that lets you engage customers, deliver information and promotions, enable transactions and support flight rebooking.

A seamless fit

We've designed the SelfServ 85 to help you engage your customers. It's slim, has a small footprint and can run software from a number of different channels, so you can create a seamless brand experience no matter how your customers choose to connect with you. The SelfServ 85 will delight your customers with its multi-touch touchscreen, integrated peripherals and intuitiveness. And your customers will appreciate that the SelfServ 85 is located right where they need it most—thanks to its slim profile, which makes it possible to be deployed in virtually any location.

Take control

Nobody likes unplanned events, but they do happen. The SelfServ 85 gives your passengers control at times of irregular operations by letting them reaccommodate themselves onto another flight. The kiosk has a built-in boarding pass scanner and printer to make rebooking easier than ever. Providing passengers with the ability to serve themselves means you can also reduce the stress on your ground staff when there are delays or cancellations.

Make it profitable

Driving ancillary revenues is important, and you can use the SelfServ 85 to take advantage of revenue-generating opportunities. The SelfServ 85 evolved from NCR's retail sector, so sales are at the heart of its design. You can deploy these kiosks at the gate, allowing passengers to quickly and conveniently purchase lounge access, priority boarding, seat upgrades, duty-free goods and more.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 450 million transactions daily across the retail, financial, travel, hospitality, telecom and technology industries. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 26,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Make it you

Your airline's brand appeals to your passengers, so the kiosks you choose should fit your brand. The SelfServ 85 comes with a customizable front panel to reflect your brand image, or it can even be completely "wrapped" to meet your needs.

We're at your service

We know that having your self-service kiosks up and running is key to your business and your passengers' experience, so we have designed the SelfServ 85 for a 24x7 environment. This kiosk can be managed and monitored remotely and comes with a variety of support options to make sure you're there for your customers when they need you.
